SUPPLEMENTARY BUDGET MESSAGE
OF
WARREN GREEN, GOVERNOR

TO THE MEMBERS OF THE TWENTY-SECOND SESSION OF THE LEGISLATURE
OF SOUTH DAKOTA,

SENATORS AND REPRESENTATIVES:

In the operation of government, a very large part of the taxpayers' money is expended for services and commodities; services in the way of salaries and wages, and commodities used in the maintenance of departments and institutions and the construction of public improvements.

Under existing economic conditions, there is no justification for any increase in the former, in the way of salaries and wages, and the decline in commodity prices should be reflected in a decrease of the amount necessary for materials, supplies, etc.

In determining the amounts necessary for the coining biennium, costs on the new price level, rather than expenditures of past years, should be given consideration.

If the increased buying power of the dollar is not recognized, the Budget is made in terms of last years' dollars and an unfair burden will be placed upon the taxpayers. More service, for a stated amount, should be rendered under present conditions than in years past.

Recognition of the decline in commodity prices should be a natural part of the present tendency towards retrenchment in governmental expenditures. The entire world is suffering from depressed business conditions, unemployment, slackened trade, and industrial inactivity. The income, from which taxes are paid, is greatly reduced.

Regardless of this condition, the fixed charges of taxes go on uninterruptedly, unless public officials take advantage of the increased purchasing power of the dollar by lowering governmental budgets.

This Legislature is accountable for the regulation of approximately ten per cent of our total governmental expenditures. We will necessarily have to rely upon local appropriation officials to reduce expenditures to a minimum in County, City, and School affairs, but, we must assume the responsibility for the volume of State expenditures and seek to reduce same to the lowest possible total consistent with absolute public needs.

I have given careful study and consideration to the Budget Recommendations submitted to you by Governor Bulow which total \$8,639,569.46, which is \$438,477.06 in excess of the total for the present biennium. I recognize full well that thin additional amount could be used to advantage in the operation of the State's business but, I am forced to the conclusion that any expansion is not justified at this time; and further, that the

appropriations under which the various departments and institutions are now operating will be enhanced through the reduction in commodity prices to such an extent that such departments and institutions will be able to effectively carry on their respective duties and activities without any substantial increase in appropriations over the total of the present biennium.

I find in the present Budget, approval of deficiency appropriations aggregating \$34,000.00 and I am advised that additional deficiencies-not presented to the Budget officials-will bring this up to approximately \$40,000. This total represents requirements not met by the preceding administration which must be cared for at the expense of added appropriations at this time. This represents funds already expended and must be cared for by appropriation.

The result of this revision of the general Budget is as follows:

State Departments have been reduced	\$110,640.00
Educational Institutions	208,655.58
Penal and Charitable Institutions	98,120.16
Total Reduction	\$417,415.74

This leaves the total revised Budget recommendations in the sum of \$8,135,653.72. This total is \$65,438.68 less than the total appropriated by the 1929 Session.

I appreciate the fact that there will be requests in the way of specials coming before you for consideration that have not been presented to and incorporated in the Budget. The general policy should be to discourage this practice. The completed Budget should contain all requests for appropriations, and any specials not included therein, to be given consideration, should be in the nature of emergencies and as such, could not have been anticipated at the time the Budget was being compiled.

Respectfully submitted,
WARREN GREEN,
Governor.

SUPPLEMENTARY BUDGET

1931-1933

Submitted by Warren Green, Governor
